

Join us at EAHAD 2024, Frankfurt, DE
Wednesday, February 7, 2024 | 17:30-18:45 | Panorama Room 2

UNDER THE
SPOTLIGHT

Shifting Prophylaxis Paradigms in VWD

The WIL-31 Study in Focus

Join us for a deep-dive into the WIL-31 prophylaxis data focusing on the efficacy of prophylactic treatment in different types of bleeding, explored through the treatment journey of three VWD patients

AGENDA & SPEAKERS

Challenging the Status Quo:
Re-evaluating Prophylaxis in VWD

Chair: Jan Astermark, SE

Insights from the WIL-31 Study

Child Living with VWD

Robert F. Sidonio Jr., US

Adult Living with Frequent Nose Bleeds

Ana Boban, HR

Female Experiencing Heavy
Menstrual Bleeding

Csongor Kiss, HU

Q&A

Speakers and Audience

This symposium is for healthcare professionals only and is organised and sponsored by Octapharma.

Prescribing information may vary depending on local approval in each country. Before prescribing any product, always refer to local materials such as the prescribing information and/or the summary of product characteristics.

Product information is available online at <https://www.octapharma.com/products/product-overview/wilate/>.

Products will be discussed. wilate® is indicated for the prevention and treatment of haemorrhage or surgical bleeding in von Willebrand disease (VWD), when desmopressin (DDAVP) treatment alone is ineffective or contra-indicated. This is a promotional symposium and products will be discussed.
