

Join us at WFH 2024, Madrid, ES
Monday, April 22, 2024 | 18:30-19:30 | Room 3

UNDER THE
SPOTLIGHT

Must-have Insights on Prophylaxis

in Haemophilia A and
von Willebrand Disease

Join our symposium for a presentation of the largest clinical study in prophylaxis for **VWD** and of new data demonstrating the importance of platelets in haemostasis and in understanding joint and bone health in **haemophilia A** patients

This symposium is for healthcare professionals only and is organised and sponsored by Octapharma. Prescribing information may vary depending on local approval in each country. Before prescribing any product, always refer to local materials such as the prescribing information and/or the summary of product characteristics. Product information is available online at <https://www.octapharma.com/products/product-overview/wilate/> and <https://www.octapharma.com/products/product-overview/nuwiq/>. This is a promotional symposium and products will be discussed. wilate® is indicated for the prevention and treatment of haemorrhage or surgical bleeding in von Willebrand disease (VWD), when desmopressin (DDAVP) treatment alone is ineffective or contra-indicated. Nuwiq® is indicated for treatment and prophylaxis of bleeding in patients with haemophilia A (congenital factor VIII deficiency). Nuwiq® can be used for all age groups.

AGENDA & SPEAKERS

Welcome and Introduction
Chair: Víctor Jiménez Yuste, ES

What we Have Learned from WIL-31, the Largest Prospective Study of Prophylaxis in VWD
Robert F. Sidonio Jr., US

Making Informed Treatment Decisions for Prophylaxis in Haemophilia A
Craig Kessler, US

Understanding the Importance of Platelets in Haemostasis
Viola Vogel, CH

Investigating the Long-Term Impact of Prophylaxis in Joint and Bone Health: The PROVE Study
Robert Klamroth, DE

Q&A
Speakers and Audience
