Join us at WFH 2026

Kuala Lumpur, Malaysia

Beyond Replacement: Redefining Factor VIII and Inhibitor Care in Haemophilia A

Monday, 20 April 2026

17:30–18:30 MYT

Room: Banquet Hall

Agenda

Join us to explore current challenges and evolving strategies in haemophilia A management, with a focus on the role of Factor VIII in the modern treatment landscape. Expert faculty will discuss individualised treatment decisions, genetic risk factors for inhibitor development, and modern approaches to inhibitor eradication.

Welcome and Introduction

Evolving Care for All: The Expanding Role of Factor VIII in Haemophilia A

Alok Srivastava (IN)

Genetics and Inhibitors: How F8 Mutations Shape Risk and Outcomes

Anna Pavlova (DE)

Modern Inhibitor Management: Strategies for Sustained Eradication

Robert F. Sidonio Jr. (US)

Panel Discussion and Audience Q&A

This symposium is for healthcare professionals attending the WFH congress only and is organised and sponsored by Octapharma. Prescribing information may vary depending on local approval in each country. Before prescribing any product, always refer to local materials such as the prescribing information and/or the summary of product characteristics. This is a promotional symposium and products will be discussed.
