

Join us at EAHAD 2025

Is it time for equity in the treatment of
severe VWD and severe haemophilia A?

February 05, Milan, Italy
17:15-18:30 CET

769_HAEPRO_EAHAD 2025 September 2024

octapharma

Join us as we explore the benefits of prophylaxis for VWD patients and delve into the reasons that these severe patients are undertreated when compared to patients with severe haemophilia A. During this session we will also examine new long-term prophylaxis data from the WIL-31 study as well as efficacy of von Willebrand factor in the surgical management of patients.

AGENDA & SPEAKERS

Welcome and Introduction
Chair: Maria Elisa Mancuso, IT

Ensuring Optimal Care for von Willebrand Disease (VWD) Patients

Prophylaxis Redefined: WIL-31 Study's Impact on VWD Management
Ana Boban, HR

The Power of Equality: Efficacy of 1:1 VWF: FVIII Concentrate in Patients with VWD
Roger Schutgens, NL

Q&A
Speaker and Audience

This symposium is for healthcare professionals only and is organised and sponsored by Octapharma. Prescribing information may vary depending on local approval in each country. Before prescribing any product, always refer to local materials such as the prescribing information and/or the summary of product characteristics. Product information is available online at <https://www.octapharma.com/products/product-overview/wilate/>. Products will be discussed. wilate® is indicated for the prevention and treatment of haemorrhage or surgical bleeding in von Willebrand disease (VWD), when desmopressin (DDAVP) treatment alone is ineffective or contra-indicated. This is a promotional symposium and products will be discussed.
